ANGEL CHILDREN.

Is there any happier woman in this world than that mother whose each successive little one seems to her but one more darling angel to continually lift her thoughts toward the sunshine of perfect happiness? But sorry is the lot of that poor mother to whom motherhood has ceased to be a cause of rejoicing, but has become instead a burden to be dreaded and looked forward to with melancholy and apprehension.

"About three months before our last baby was born (which is our fourth), writes Mrs. Nellie Carl, of Myrtlepoint, Coos Co., Oregon, "my health was very poor. I had been troubled for about eight years with female disease. I doctored with good physicians but obtained no relief, so I wrote to the World's Dispensary Medical Association, and was advised to take Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery.' I did so, and am happy to say my health began to improve and I did my work up to the last, and felt splendid.

"I got along finely during confinement, and have the healthiest baby I ever saw. When he was three months old he weighed eighteen pounds: he is now seven months old and weighs twenty-four pounds. I can say I have had no return of my old troubles. I thank you very much for the good you have done me."

Any woman may write to Dr. R. V. Pierce, of Buffalo, N. Y., a statement of her case, which will be considered in absolute confidence by this physician who stands among the foremost specialists of the century in the treatment of women's diseases. He will send her (in a plain, sealed envelope) sound, sensible, valuable advice free of all charge.

Dr. Pierce's great thousand-page, illustrated "Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, to pay the cost of mailing only, or cloth-bound for 31 stamps.

DISCRIMINATING LADIES.

Enjoy Using Herpicide on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpicide speak of it in the highest terms, for its quick effect in cleansing the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it allays that itching which dandruff will cause. Newbro's Herpicide effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness; in killing it, Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich

WEAK HEARTS

are caused by Indigestion. If you eat a little too much, or if you are subject to attacks of Indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart.

Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

Kodol

Dyspepsia Cure

digests what you eat, takes the strain off of the heart, and contributes nourishment, strength and health to every organ of the body. Cures Indigestion, Dyspepsia, Sour Stomach, Inflammation of the mucous membranes lining the Stomach and Digestive Tract, Nervous Dyspepsia and Catarrh of the Stomach.

After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured.

MRS. LORING NICHOLS, Penn Yan, N. Y.

I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me.

DISASTER TO GUNBOAT.

The explosion of the United States gunboat Bennington in San Diego Bay, California, yesterday morning, was announced in the Gazette. The disaster is regarded as one of the most frightful in the peace history of the American navy, excepting the sinking of the Maine in Havana harbor in 1898. Without warning, the lower furnace of boiler B exploded and the warship blew up. At a moment when the warship, lying at anchor and with her officers and crew quietly attending to their duty on board, was the object of interest to hundreds of persons watching her from piers, pleasure boats and passing ferry boats, a cloud of steam suddenly burst from a point just forward of the smokestack, and the spectators were horrified to see bodies and human fragments hurled high in the air and scattered over the surrounding water.

The outburst was accompanied by a roar as of thunder and a shock which rocked vessels nearby. In an instant the air was filled with shrieks of pain from the wounded, which could be heard ashore. The next moment bleeding sailors were fighting, crippled, in the water against death in only less sudden form than that from which they had just escaped, while rowboats, sailboats, launches and tugs were being driven to the rescue as fast as possible.

The latest number of dead is 33, including Lieut. Newman K. Perry. Seventy-six are wounded and 21 are missing. The total number of casualties is 131. Of the wounded many will die.

Commander Lucien Young said, as far as he had been able to inspect the ship, the explosion occurred in the starboard main boiler. He says there must have been a weak spot in this boiler, though the vessel's boilers were inspected a year ago and reported sound. Lieutenant Perry, however, said recently it has been common talk aboard the Bennington that the boilers had been defective for the last six months, and many had feared such an accident as occurred yesterday.

The force of the explosion was terrific beyond conception. Human bodies were hurled into the air to a height probably not less than 200 feet.

Sections of the upper deck were carried away from stem, to stern and aft a hole was blown in the side of the warship, into which the water poured, causing the rapid listing of the vessel.

Most of the men on board were assembled between decks, above the boilers, when the explosion occurred. Here is where the most frightful slaughter took place. No one living has been able to describe what happened there, but vivid witnesses exist in the blood-smeared walls. It is from between decks that most of the dead bodies have been taken.

Commander Young and Surgeon Peck were ashore at the time of the explosion. Lieutenant Yates was in charge. Lieutenant Wade was the only one of the officers aboard not injured. Lieutenant Sabin was badly burned about the hands. Lieutenant Yates was badly scalded. The other two officers were injured, but how badly is not known.

Tugs and launches which had hastened to the rescue were soon headed for the shore, bearing those whose injuries permitted removal and bodies of the dead. All the time the work of rescuers was going on the ship was settling to starboard and clouds of white steam poured from her interior. News of the disaster spread like wildfire over the city and soon the harbor was lined with people. Commander Young, who was ashore getting final orders preparatory to sailing, was soon on deck. He at once ordered the air tight compartments closed and signaled a tug to tow the ship into shallow water. Then he took charge of the sickening work at hand.

Five Drowned in Canada.

At Carthby, Canada, Rev. J. A. Gignac, parish priest of St. Michaels; Hector Codere, aged 20, recently admitted to the priesthood; Eugene Codere, aged 16, brother of Hector, and Wilfred and Damas Masse were drowned by the upsetting of a rowboat. Two young men, Charles and Raoul Codere, a brother and cousin of two of the victims, clung to the upturned boat and reached shore after being two hours in the water. The seven had gone to Lake Aylmer boating, all in one boat. A stiff breeze arose, coming at times in gusts, and the boat began to ship water and was finally swamped. Only the two who were saved succeeded in getting hold of the boat. The others went down at once. Father Gignac, the survivors say, gave absolution while in the water to the drowning party.

The Secret of Good Coffee

Even the best housekeepers cannot make a good cup of coffee without good material. Dirty, adulterated and queerly blended coffee such as unscrupulous dealers shovel over their counters won't do. But take the pure, clean, natural flavored **LION COFFEE,** the leader of all package coffees—the coffee that for over a quarter of a century has been daily welcomed in millions of homes—and you will make a drink fit for a king in this way:

HOW TO MAKE GOOD COFFEE.

Use LION COFFEE, because to get best results you must use the best coffee.

Grind your LION COFFEE rather fine. Use "a tablespoonful to each cup, and one extra for the pot." First mix it with a little cold water, enough to make a thick paste, and add white of an egg (if egg is to be used as a settler), then follow one of the following rules:

1st. WITH BOILING WATER. Add boiling water, and let it boil THREE MINUTES ONLY. Add a little cold water and set aside five minutes to settle. Serve promptly.

2d. WITH COLD WATER. Add your cold water to the paste and bring it to a boil. Then set aside, add a little cold water, and in five minutes it's ready to serve.

3 DONT'S { Don't boil it too long.
Don't let it stand more than ten minutes before serving.
Don't use water that has been boiled before.

TWO WAYS TO SETTLE COFFEE.

1st. With Eggs. Use part of the white of an egg, mixing it with the ground LION COFFEE before boiling.

2d. With Cold Water instead of eggs. After boiling add a dash of cold water, and set aside for eight or ten minutes, then serve through a strainer.

Insist on getting a package of genuine LION COFFEE, prepare it according to this recipe and you will only use LION COFFEE in future. (Sold only in 1 lb. sealed packages.)
(Lion-head on every package.)
(Save these Lion-heads for valuable premiums.)

Bomb Thrown at Sultan.

A telegram to the Brussels Petit Bleu from Constantinople says:

"During the Selamilk at Brussels yesterday a bomb was exploded in the court yard of the mosque, close to the Sultan. His majesty was not injured, but several members of his suite were killed or injured. Several arrests have been made."

The Turkish Embassy in London issues the following statement: "As the Sultan was leaving the mosque yesterday at the conclusion of the ceremony of the Selamilk a bomb burst in the courtyard of the mosque. Divine providence miraculously preserved his imperial majesty, who displayed on this occasion his usual self-possession and courage. Himself driving his phaeton, his majesty returned to the imperial palace, bowing to the people, as if nothing had occurred a couple of minutes before. A few persons were killed and wounded by the explosion. All the population of the capital is indignant over this infamous and dastardly deed."

A Grim Tragedy

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

SATURDAY EVENING, JULY 22, 1905.

THE EXPLOSION of one of the boilers of the United States gunboat Bennington at San Diego, Cal., yesterday morning was the most terrible disaster in the history of the United States navy that has occurred since the destruction of the battleship Maine in Havana harbor in 1898. Between 25 and 30 men were killed and about three times that number maimed. It is said that the explosion was due to a defect in the boiler, which had heretofore been regarded as weak, although the inspectors a year ago made a favorable report upon the same. It seems that notwithstanding all the progress made during the past two-thirds of a century in the use of steam, it has not yet been successfully bridled, and occasionally explosions occur. Strange to say, most of such accidents occur on men-of-war, where it is supposed more caution is observed and all the latest safeguards are utilized. In past years several explosions have taken place on British war vessels, as well as on those of other nations. The disaster to the Bennington was of a most appalling nature, as will be seen by the description elsewhere in the Gazette, and should be a sufficient admonition to the Navy Department to take more efficient methods to prevent similar catastrophes in the future.

THE MYSTERIOUS pull of a certain supply company with the purchasing agents of the government printing office startled the Keep commission during its recent partial investigation of that office. The supply company is merely an agent of manufacturers, but for years it is said to have enjoyed a practical monopoly of selling these supplies to the great government printery, where hundreds of thousands of dollars' worth are used annually. Manufacturers who undertook to sell direct invariably found that they could not do so. If they wanted the government to use their wares they found it necessary to make the supply company their agent and pay a fat commission on sales. It now appears also that all supplies for the printing office were bought in the open market without competition. The wants of the office were merely made known to the two men who constituted the favored supply company. These allegations have been brought to the attention of the President and should be searchingly investigated when the reorganization of the printing office, which the President is now considering, has been accomplished.

THE SULTAN OF TURKEY has again become a target for bomb-throwers, an attempt having been made to kill the potentate yesterday while he was engaged in devotional duties. The Czar of Russia has lo these many years been a shining mark for terrorists, but he has so far escaped the wrath of his enemies. Misery is said to love company, and it may be some consolation to Nicholas to know that he is not the only "best-hated man in Europe." Abdul Hamid has long had an uneasy pillow, but he has managed to steer his empire clear of dangerous rocks and to preserve his person from harm. He is generally admitted to be greatly superior to his brother autocrat in statecraft and everything else that tends to fit him for his position. In fact he is regarded as among the great diplomates of the present day.

AFTER AN interchange of proposals extending over a year the British government has finally notified to the Dominion government that it is willing to agree to all of Canada's proposals in regard to taking over the forts at Halifax and Esquimalt. By the terms agreed upon the imperial forces now at these two chief forts on Canadian territory are to be transferred to the Canadian government, provided they are willing to be thus transferred, and this transfer is to take place September 1. Throughout the discussion of terms the British government has acted in a broad and liberal manner and has left Canada no reason to be dissatisfied, as the terms she proposed have been accepted in every important detail.

A PARTY of men in an automobile which killed a boy in the Southern Boulevard, New York, yesterday laughed aloud, put on the power and escaped. If such men were compelled to stand trial for murder they would laugh on the other side of their faces.

A PLEDGE to abstain from the use of liquor for life was the penalty imposed by a Kentucky judge on a prisoner yesterday. And the poor fellow is to continue to live in Kentucky! The sentence is severe, indeed.

ST. SWITHIN'S prophecy did not hold good this year—that is so far as this section of the country is concerned.

It is understood that Premier Balfour has decided to remain in office until the end of the session, [illegible] dissolve parliament in October. No authoritative statement, however, will be made until Monday, and in the interval this decision may be modified.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., July 22.

The following dispatch was received at the Navy Department from Commander Lucien Young of the Bennington, sent late last night. "San Diego, July 21.—Arrangements are being made to bury dead at Fort Rosecrans Sunday afternoon about 2 o'clock. Several bodies penned in under boilers covered by water. Have engaged fire engine to pump out so as to assist in their recovery. Also cutting away steel bulk heads in order to get at them. Expect several men to die during night. Will wire department in the morning. Everything that is possible to be done is being done both for the living and the dead. Only able to identify one man on board so far. He is R. B. Carr, apprenticed seaman."

Rescued from Drowning.

Poughkeepsie, N. Y., July 22.—Judge Alton B. Parker and his grandson, Alton Parker Hall, the five-year-old son of Mrs. Charles Mercer Hall, were rescued from drowing off Esopus Island, opposite the judge's home, early today by Edward Fritz, a photographer, of this city. Young Hall was swimming on the back of the judge, holding his arms about the latter's neck. The judge was choked and he cried for help. Mr. Fritz, who, with his family, were waiting for the steamer Morris Block, to return to Poughkeepsie, after an outing, plunged off the end of the dock and swam to the struggling in the swift current. Unable to breathe the judge threw the lad off, and the latter sank, but was brought to the surface by Fritz. Both were helped ashore, and it was several minutes before the boy was revived. At the judge's home later it was announced that the judge and the boy had fully recovered from the effects of their experience.

Decided Fall in Temperature.

For the first time in 30 years, in July, frost Thursday night severely damaged the growing crops in northern Michigan.

The temperature fell 44 degrees in 18 hours, or from 100 in the shade to below freezing. Crops throughout the northern delta are reported seriously impaired.

Peaches are so nearly matured that they were not injured, but corn, garden truck and all late crops were badly nipped by the frost. At 4 o'clock yesterday morning the mercury stood at 42, which is the lowest temperature recorded in the month of July since 1875.

Reports from Menominee and other points show similar conditions. Truck gardeners and small farmers, whose products were almost ready for the market, will suffer heavily. The temperature all of yesterday continued near the frost line and further damage is feared.

Information which is regarded in railroad and financial circles as official was received in Baltimore from New York yesterday that the Baltimore and Ohio Railroad Company has united with the Vanderbilt interests in the purchase of the coal lands, railroad rights and other property of the Little Kanawha syndicate in central West Virginia.

Inquiry among the departments in Washington along the line suggested by William J. Bryan's query in the Commoner as to the number of Cabinet officials who accept railroad passes, brought out the unofficial answer from reliable sources that every member of the Cabinet except Secretary Bonaparte accepts all passes sent him, but solicits none.

A dispatch from Salonica, European Turkey, says a report received there says that a large Bulgarian band attacked the patriarchist villages of Baltina and Gradeshuita, in the Morinovo district, Thursday night, murdering the entire population indiscriminately, and that the carnage did not end until yesterday morning. Troops proceeded to another village in the district Thursday, and, finding that the population had fled, burned the village, the inhabitants of which were suspected of having murdered 30 Turks near Doiran.

RUSSIANS DISLODGED.

A special telegram from Otaru says that the Russians defeated at Daline were about 500 strong, with six field and three machine guns, and, taking the fullest advantage of the topographical hcaracter of the district, offered the most desperate resistance.

The Russian positions were hidden in a thick forest, and it was impossible for the Japanese gunners to make a correct observation. The cannonade, however, was opened by the Japanese at 6 o'clock a. m., July 7, and was kept up until dusk. The Japanese infantry gradually gaining ground, closing on the enemy's line of defense, awaited an opportunity for the final charge. It was nearly 2 a. m. when the Russians' first line of defense, strengthened by barricades and trenches, was taken. This success was vigorously followed up, but it was not until 9 a. m. July 8 that the enemy was driven out of the second line of his defense and victory secured, with trophies of four field and one machine guns. The nature of the ground exposed the Japanese assailants to a great disadvantage and risks.

It was believed that, owing to the short supplies of ammunition and provisions, the Russians at Sakhalin could not hold out much longer.

[COMMUNICATED.

The Cameron Street Track.

An article with the above caption appeared as a local in last Friday's Gazette. The local was, in the opinion of many, a recital of the supposed virtues of the railway managers and a general fault finding with the city authorities; the Gazette's reporter has certainly never visited the street which he selected for his local.

The City Council only a few years ago spent several hundred dollars in relaying from curb to curb, Cameron street from Columbus to Alfred, and about a year ago it was torn up by the railway company to lay rails. Last winter, owing to a depression between the tracks, ice formed to proportions sufficient to afford a place to skate, and today, after a rain, it resembles a marsh; and from the corner of Columbus and King to Cameron, and west to the city limits the track has had apparently no attention from the railway people, and the correctness of this statement can be verified by a visit along the line.

There is much more than can, and no doubt will, be said, on the "Cameron Street Track" local, but it is unnecessary for newspaper discussion just now.

Fair Play.

The communication in yesterday's Gazette signed "Player," stated that the umpire gave the Old Dominions the game by a score of 9 to 0. In the fifth inning an Old Dominion player deliberately blocked and tripped the Del Ray catcher. This is robbery and dirty ball playing, that will not be tolerated. Come what may, if this "player" has full charge of the Old Dominion Club, our baseball league is better off without such "kickers."

Today's Telegraphic News

More Bomb-Throwing.

Bialystok, Poland, July 22.—Eight persons were killed by the explosion of the bomb thrown at Chief of Police Pielenkin here last night, and 13 others, including the chief and his son, were injured. The bomb was thrown while the police official was mingling with a crowd of people in the centre of the city.

Constantinople, July 22.—The people generally here do not yet know of the attempt made to assassinate the Sultan. The authorities are greatly alarmed over the act, as the attempt is the first of its kind ever perpetrated in Constantinople. At least thirty persons were killed by the explosion of the bomb which was one of the largest ever used for such a purpose. The estimates of the wounded vary, from fifteen to forty. The Sultan on his return to the palace, after the bomb throwing, kept an appointment he had for an audience with the Austrian ambassador.

Balfour's Defeat.

London, July 22.—The alarm which was felt yesterday by members of the ministerial party owing to the defeat of the government in the House of Commons on Thursday night and the intimation that Premier Balfour would follow the usual custom and resign has now subsided to some extent. Conservatives still take a pessimistic view of the outlook for the future. While no one outside the Cabinet knows what decision was reached in regard to resigning at the meeting of the ministers yesterday, conservatives realize that whether or not Premier Balfour resigns the usefulness of the present government is practically at an end. In case the ministers do retain their portfolios the chief reason for their action will be to avoid a general election during the hot weather.

There is little doubt but that the reign of the conservatives is practically over, and while the present session of Parliament may last several weeks, it is the general expectation that the liberals will come into power in the autumn.

The Standard commenting on the Cabinet crisis says: "We are in a position to state definitely that the Cabinet will not resign immediately. Four members of the government favor the dissolution of Parliament in the autumn. No definite decision has yet been reached."

To Call Congress.

Oyster Bay, N. Y., July 22.—President Roosevelt and Secretary of State Elihu Root, continued their consultation at Sagamore Hill this morning, and it was announced at the executive office by Assistant Secretary Barnes, that Mr. Root would probably remain until late this afternoon or evening. Mr. Barnes was preparing to drive up to Sagamore Hill as usual at 10 o'clock with the President's mail, but received a telephonic order to postpone his visit until later in the day. President Roosevelt has decided to call the extraordinary session of Congress about November 13. A dispatch from Nebraska, printed in the morning papers, says that Senator Burkett is in receipt of a letter from Secretary Loeb, in which he names November 11 as the date selected by the President. November 11 falls on Saturday, a rather unlikely week-day to be chosen and the opinion was expressed at the executive office this morning that the Monday following is a better guess. "The President has not decided upon the exact date for calling the extra session," said Assistant Secretary Barnes, but November 13 is about the time."

Ready for the Blast.

Portsmouth, N. H., July 22.—Everything is now in readiness at Henderson Point for the largest blast ever fired in this country, if not in the world, and barrying any unforeseen accident, this will go off promptly at four o'clock this afternoon. Miss Foster, the daughter of Superintendent Foster, will touch the button which will send into the forty odd tons of dynamite the spark from the central electric light station at the navy yard. When the workmen left the place at six o'clock last night, everything was in readiness for the blowing up of the point. The last of the dynamite has been placed in the vertical holes about the cofferdam, the final connection made and every hole has been properly wired and tested. Late yesterday afternoon, all of the dynamite not used by the contractors, and all the government stores were hauled to the point and loaded into boats to be taken to the lower harbor and stored in barges to prevent any unexpected explosion.

The Ill-fated Bennington.

San Diego, Cala., July 22.—Blackened, torn and almost dismantled, the gunboat Bennington ripped asunder yesterday by the explosion of her boilers, lies this morning on the harbor beach while eighty-five of her crew lie swathed and bandaged in the hospitals and homes of San Diego. All night divers worked steadily to recover from the twisted and torn interior of the ship the bodies of the engineer crew. Crowds of curious people flocked about the harbor watching the work. The heroic work of the survivors whose disclipine was unshaken by the terrible disaster is the subject of much comment. Many believe that at least 50 persons were killed by the explosion. Among the seriously injured is H. W. Shacklett, hospital steward, of Delaplane, Va.

San Diego, Cala., July 22.—It is now estimated that 45 men were killed or died of injuries on the Bennington, and about 75 were wounded.

American Challengers Defeated.

London, July 22.—R. F. and H. L. Doherty, the English defenders of the Davis cup, defeated Beals C. Wright, and Holcombe Ward, the American challengers in the doubles at Wimbledon today. The score for the round stood, 8-10, 6-2, 6-2, 4-6, and 8-6 in favor of the English players.

Sydney, N. S. W., July 22.—James Stanbury won the world's sculling championship from George Towns, on the Paratta river today in a race over the championship course by two lengths. The stakes were $2,500 a side.

Old Point Comfort, July 22.—Admiral Sigsbee's fleet passed Old Point at 8.30 o'clock. Admiral Evans's ships put in here, while the vessels escorting the remains of the great admiral proceeded toward Annapolis. Boats were lowered from the Maine, Kearsarge, Kentucky and Missouri, and men and officers of high degree came ashore. The Iowa came off the capes last night to join the Evans fleet in giving greeting to Sigsbee and the squadron. Admiral Evans came ashore. He stated that his fleet met Sigsbee's at nine o'clock yesterday morning, 250 miles from Old Point.

Annapolis, Md., July 22.—Admiral Sigsbee's fleet, bearing the body of John Paul Jones, is expected to arrive in Annapolis Roads some time this afternoon.

It has been definitely decided that the ceremony attended upon the receipt of the body here will be held on Monday at 10 o'clock. The ceremony of placing the body in the temporary vault will be of a simple nature, as the more important services will not be held probably until a year hence.

Larceny of Passes.

Pittsburg, Pa., July 22.—At the request of the officials of the company, the hearing in the case of larceny of about $3,000 worth of passes from the Baltimore & Ohio railroad by employes has been postponed until Thursday of next week. This action of the company is said to be due to a desire to round up all concerned in the conspiracy before legal action begins in earnest. Many more arrests are expected and it is strongly intimate that the larceny charge will affect B. & O. employees in other cities.

Chinese Boycott.

Shanghai, July 22.—The boycott of American goods which has been declared by Chinese merchants as a protest against the rigorous exclusion of Chinese from the United States, has now spread throughout the southern provinces. American enterprises are being barred absolutely from a large area having a population of 150,000,000. The fact that the movement to boycott American goods is so perfectly organized, leads to the belief that it is being managed by government officials at Peking.

THE MANN LAW.

Nottingham, Va., July 20, 1905.

To the Editor of the Alexandria Gazette.

Knowing that you wish to inform the people on all subject of public interest, I have prepared and enclose herewith a statement of what the "Mann Law" is, and what it has accomplished. I sincerelu trust that you will deem it proper to publish this statement as a matter of information, regardless of your preference among the candidates in the pending gubernatorial contest. I will very grealy appreciate your doing so.

Very truly yours,
WM. HODGES MANN.

THE MANN LAW.

The "Mann law" is an amendment to the general revenue law, just seven lines in length, and provides the method of securing a license to sell liquor in the country. It does not apply to cities, towns of over five hundred inhabitants, or to watering places.

About forty-thousand voters petitioned the legislature to enact the law. The Methodist, Baptist and Christian Churches by their official State bodies endorsed the law, and all the other churches favor it. It was passed by a democratic legislature, and signed by a democratic governor, and will be found in the Acts of Assembly 1902-3-4, page 220, lines 13-19. It became effective April 16, 1903.

The law is not a prohibitive measure. It merely provides that before a license to sell liquor in the country can be granted, the court must be satisfied.

1. That the applicant will superintend the business and conduct an orderly house.

2. That the place is one at which police protection is afforded.

3. That a majority of the qualified voters in the magisterial district favor the sale of liquor at the place applied for.

4. That the sale of ardent spirits at that particular place will not be contrary to a sound public policy or injurious to the moral or the material interests of the community.

It does not do away with the local option law, but supplements that law.

The social club law is not a part of the "Mann law," and I am in no way responsible for it.

Along with the "Mann law," there was an amendment to the revenue law doubling the tax on barrooms.

The following are some of the benefits which have been derived from the law:

There are 767 fewer barrooms in Virginia than before the law was passed.

In consequence of the increased tax on the saloons which remain, there has been an annual increase in the revenue derived from liquor licenses of a little over $107,500.

There has been a material decrease in the criminal expenses in the district affected by the law.

There has been a marked increase in the security and prosperity of the country districts.

But perhaps the most significant evidence of the good accomplished by the law, is the fact that not a single case of criminal assault upon a white woman has been reported from the district covered by the "Mann Law" since it became effective; nor has there been a single lynching in the country districts.

I have not attempted to discuss the merits of the law, but have merely stated a few facts, which I believe the people should know.

IN MEMORIAM.

In fond remembrance of my beloved mother, Mrs. SARAH CALVERT, who departed this life July 22, 1904—one year ago today.

God alone knows how I miss her
In my home, oh, mother dear,
How for thee my heart is grieving,
How I long thy voice to hear.
Dearest mother, yes, we all miss you,
I often look to see if you are there,
When we are seated at the table—
Oh, that lonely, vacant chair.

BY HER DAUGHTER, MRS. ANNIE ATWELL.

Georgians at Manassas.

The Georgia veterans, accompanied by half the population of Manassas and a large number of people from that vicinity, left there at 9 o'clock yesterday morning for Groveton, around which historic village they spent the entire day. The veterans held an informal business session at Groveton, and then lunch was served. The greatest quantity of good things to eat had been prepared by the ladies of the Manassas and Bull Run Chapters of the Daughters of the Confederacy.

After appropriate exercises at the monument, in which the invocation was made by Rev. T. Douglas D. Clark, addresses were made by Professor Pendergrast, Dr. North and Mr. Goodwin, of Georgia. The most elaborate preparation had been made by the ladies for giving refreshments to the veterans and their friends.

After recess addresses were made by Judge Lewis C. Barley, and Mr. C. C. Carlin, of Alexandria. Dr. R. M. Clarkson, of Prince William, read an original poem. Rev. Dr. Dudley Powers, who delivered the oration of the day, made an address. The reunion was the most successful and enjoyable ever held there.

The Georgians gave fifty dollars to both the Manassas and Groveton Chapters.

The Georgians left last night on a special train for this city. They visited all the points of interest here and Mount Vernon and Arlington during the day. They will attend the services at Christ Church tomorrow morning.

They will visit Fredericksburg, Richmond and Petersburg.

The organization will be entertained tonight at the Confederate Veterans building in this city by the ladies of the Confederate Associations of Alexandria.

The regiment during the war was commanded by Col. George H. Carmichael. It is now known as the Seventh Georgia Regimental Association.

At the meeting of the organization yesterday the following officers were elected: Capt. J. R. McCollum, President; J. B. Daniel, Vice President; V. A. Wilson, Secretary; W. J. Hudson, Treasurer Executive Committee—Company A, John L. Bailey, Newnan; company B. Thomas Wood, Atlanta; company C, Dr. Robertson, Dallas; company D, John B. Duncan, Douglasville; company E, G. W. L. Powell, Atlanta; company F, Robert Housworth, Carrolton; company G, J. E. Pendergrast, Newnan; company H, Rube Gant, Rock Mart; company I, Clinkseales, Marietta; company K, C. R. Maddox, Atlanta. Finance Committee—Col. G. H. Carmichael, W. B. Thomas and Dr. H. L. Wilson.

Police Court.

The following cases were disposed of this morning:

Two white men, arrested by Officer Bell for disorderly conduct and fighting, failed to appear. One forfeited $10 collateral and the other $5.

Willis McKnight, colored, arrested by Officer Nicholson charged with taking horses from a stable without permission of the owner, was dismissed. Harrie McKnight, colored, arrested by the same officer on a similar charge, was fined $50.

John Sims, arrested by Officers Gill and Sherwood charged with drunken and disorderly conduct, was held.

Ida Freeman, colored, arrested by Officers Nicholson, Bettis and Smith charged with selling cocaine, was fined $50.

Two white men, arrested by Officer Nicholson charged with disorderly conduct, were dismissed.

Brilliant Planets.

An early riser can enjoy the magnificant spectacle of the two most lustrous planets, Venus and Jupiter, showing as morning stars and being in close conjunction. It is impossible to confound these two planets with any other celestial objects. They rise between 1 and 2 o'clock in the morning, Jupiter about half an hour sooner than Venus, and emit their brilliant light until the morning twilight is far advanced. Even the full moon cannot quench their lustre. The best time to view these two brilliant planets is about 3 o'clock, at which time they are high up in the heavens and the skies are not yet irridated by the lights of the aurora. The planets are now, and will be for a short time, within about 6 degrees of each other.

Baseball.

STANDING OF THE CLUBS.

	W	L	Pct
Invincible	3	1	750
Del Ray	2	1	667
Virginia	2	2	500
Old Dominion	1	1	500
Oriental	2	2	500
Potomac	1	4	200

Quite an interesting game of baseball was played on the fair grounds yesterday between the Invincibles and the Orientals. The game was a one-sided affair in favor of the Invincibles until the seventh inning, when the Orientals bunched hits and made runs enough to win the game. The game, as usual, abounded in arguments, notwithstanding the fact that the league had decided to eliminate "hot-air" ball playing. Several bad decisions by the umpire also helped the leaders out. The score at the ending of the game stood: Orientals, 11; Invincibles 10.

New Building at High School.

Designs and specifications have been completed for the new dormitory building which will be erected at the Episcopal High School near this city, and the work will soon be commenced. The structure will be erected on the south side of the main building and will occupy the site of the old infirmary and Blackford Literary Society Hall. A portion of the new building will be made the home of the Blackford Society. Another portion will be set apart for suites for several of the instructors, and there will be apartments for the entertainment of guests of the school. The building will contain rooms for twenty or twenty-five students.

Attempts at Suicide.

E. Morris Cox, 36 years old, a clerk in the offices of the Southern Railway Company, in Washington, made two attempts to commit suicide yesterday morning at his home in Georgetown, first by slashing his throat from ear to ear with a razor and stabbing himself in two different places above the heart with the same weapon and later by jumping into Rock creek. After Cox had been rescued from the stream he was taken to Georgetown University Hospital, where 16 stiches were taken to sew up his wounds. His wounds, though serious, are not considered fatal.

No Smallpox.

Bud Elsey, colored, living on Columbus street between Wolfe and Wilkes, was reported yesterday to be sick with smallpox. Both of the city health officers being out of the city, the Mayor requested Drs. Gibson and Snowden to examine into the matter and report to him. In the meantime the house in which Elsey lives was quarantined. Today the physicians reported to the Mayor that the man's illness was not due to smallpox and the quarantine was at once raised.

The Weather.

Rain began to fall at an early hour this morning. The wind had changed to the northeast, and as the day advanced the showers became more copious. Forty-four years ago, after the first battle of Manassas, a cool easterly wind and rain added to the bedraggled condition of the federal soldiers who had retreated to Alexandria and who were straggling through the streets of the city footsore and hungry with apparently no objective point.

The Market.

Notwithstanding the rainy conditions, about the average number of country people were in market this morning, and the supply of produce was about equal to that of last Saturday. There was the usual amount of vegetables, butter, eggs, chickens, &c., and prices had undergone no material change. The supply of cantaloupes had increased. The home-grown varieties are now coming in, some of which are fine.

Excluding Spectators.

Justice Caton again cleared the Police Court room this morning of all persons not witnesses or parties to cases. This action has been deemed necessary by the strifling atmosphere which often fills the room when large numbers of spectators crowd into it. A large percentage of those who appear as lookerson are colored persons, who are employed mostly in killing time.

Funeral.

The funeral of John Jacob, son of Mr. Jacob Brill, took place from St. Mary's Church at 9:30 o'clock this morning, and was attended by relatives and friends of the family. Rev. Father Cutler conducted the services. The pallbearers were Messrs. Leo, Hubert, Arthur, Bernard and Walter Donnelly and Louis F. Brill.

Contract Awarded.

The committee on streets has awarded the contracts for laying gutters on the west side of Lee street between Wolfe and Franklin and the paving with cobblestones, of Wolfe street, between Lee and Union, to Mr. Ernest R. Boyer. The work is to be commenced at an early day.

An Abundant Yield.

Mr. Levi Huffman brought to this office today a switch from a plum tree which contained about a quarter of a peck of fruit. The branch was no thicker than a lead pencil and three feet long. It was taken from a tree on Mr. Huffman's premises a short distance south of city.

Royal Arcanum.

The Royal Arcanum Council of Fredericksburg has called for a conference of the councils of Virginia, to be held at Murphy's Hotel, Richmond, August 9, to take such action in relation to the increase of rates. Every council in the State is asked to send delegates.

Fined Fifty Dollars.

Officers Nicholson, Bettis, and Smith brought Ida Freeman, colored, a denizen of the northeastern portion of the city, into the Police Court this morning charged with the unlawful sale of cocaine. The accused was fined $50. She was represented by Mr. L. H. Machen.

Caught the Horseman.

For some time Mr. Robert Elliott has had reason to believe that his horses have been used at night, as when he would make preparations for a drive he found them exhausted. There was an ancient belief that witches took nocturnal rides upon horses as well as on human beings, but in the above instance, it seems, that the parties were negroes. Late last night Mr. Elliott discovered that his two horses had been taken from the stable in the rear of his residence on Duke street, and he, with Officer Nicholson, procured a buggy and started in search of the animals. They were found about three miles west of this city near the Leesburg pike with darkeys mounted upon them. Each man had a pint bottle of whisky in his pocket. The negroes were brought to this city and locked up, and this morning they were arraigned before the Police Court. The offenders were represented by Col. F. L. Smith. They gave their names as Harry and Willis McKnight. It seems that the first named had been in Mr. Elliott's employment. His parents live in the neighborhood of Seminary Hill, and last night he and Willis McKnight entered the stable and rode away on the horses. No felonious intention on the part of the darkeys was proven, and Harrie was fined $50 under the code, and Willis was dismissed.

A man who was in a dismembered condition collapsed at the corner of Duke and Patrick streets late last night, and when he awoke this morning he found that he had been relieved of his gold watch during the night. Ruth, the little daughter of E. N. Dewey, of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five minutes I saw a change for the better. The Monkey's Role.

A monkey is not fortunately a common gift, but one was brought, nevertheless, to a New York young woman by a friend returning from a voyage in the tropics. From the moment of his entrance into the house the monkey showed that he would be a strenuous pet to look after, and for the next hour the family was kept busy trying to repair the damage he did. The monkey made his way to the kitchen and in the temporary absence of the cook snatched part of a chicken which lay on the table. Coming in presently, the cook missed the chicken and looked about in surprise to see what had become of it. Suddenly she gave a wild shriek of terror, and, rushing upstairs, she burst into the family sitting room, crying:

"Oh, ma'am, the old boy himself is downstairs, sittin' on the washtubs, pickin' the chicken!"—New York Tribune.

The Old National Road.

When the panic of 1837 swept over the country the national road was barely halfway through Illinois. No work was done on it after 1841. Two years before, however, a line of stages and post routes had been started from Cumberland, in Maryland, to Terre Haute, in Indiana, from which latter place there was a triweekly service for passengers and mail to Springfield, Ill. This marked the first overland travel from east to west. Passengers and mail bags were jolted along in cumbersome coaches, each with four strong horses. On account of the high rates travel was confined mainly to merchants and lawyers. The passenger, with an allowance of fifty pounds of baggage, paid at the rate of 10 cents a mile. It is noted that Clay and Lincoln were among the frequent passengers.—Philadelphia Ledger.

Evolution of the Canary.

The evolution of the canary of today from its ancestor—or should it be ancestors?—of some centuries ago is as wonderful as the bringing of our present queen of the garden from its humble progenitor, the wild rose of our hedgerows. There surely could hardly be a contrast more striking, says a writer in Cage Birds, than that 'twixt the modern crested canary, with its wonderful head feather, or the giant Lancashire and the greenish yellow little creatures who fluttered and sang in the orange groves of the sunny islands whence they take their name. The writer sees no reason why canaries may not become the size of the song thrush.

Indigestion Cured.

There is no case of indigestion, Dyspepsia or Stomach Trouble that will not yield to the digestive and strengthening influence of Kodol Dyspepsia Cure. This remedy takes the strain off the stomach by digesting what you eat and allowing it to rest until it grows strong again. Kodol Dyspepsia Cure affords quick and permanent relief from Indigestion and all stomach troubles, builds up the system and so purifies that disease can not attack and gain a foothold as when in a weakened condition. Sold by W. F. Creighton, 401 King street, and corner Queen and Patrick streets.

The pills that act as a tonic, and not as a drastic purge, are DeWitt's Little Early Risers. They cure Headache, Constipation, Billousness, etc. Early Risers are small, easy to take and easy to act—a safe pill. Mack Hamilton, hotel clerk at Valley, N. D., says: "Two bottles of these Famous Little Pills cured me of chronic constipation.' Good for either children or adults. Sold by W. F. One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent. of his earnings. He must spend nine dollars in living expenses for every dollar saved. This being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars For sale by Gibson & Timberman and W. F. Creighton & Co.
